Turn your vision into reality
with the **OVHcloud Startup Program**

OVHcloud®

Why should you be part of the OVHcloud US Startup Program?

The OVHcloud US Startup Program provides startups and scaleups with free Public Cloud credits and technical support to accelerate their journey onto a secured, reliable, and cost-efficient cloud. Our ambition is to help startups use cloud technology more efficiently to grow their business. Your success is our success! With the OVHcloud US Startup Program you can:

▶ Design and operate cloud applications in your early stages of development

▶ Build the optimal infrastructure to scale rapidly and conquer new markets

Our solutions offer high performance and scalability at a lower price point, making them a more cost-effective option for startups:

▶ No hidden fees

▶ Built on open standards

▶ High performance infrastructure

▶ Best-in-class sustainability metrics through our innovative data center design

▶ Compliance with data sovereignty laws by country

Our 12-month program offers you:

START
▶ $12,000 of free credits

▶ 6 hours of technical support

▶ Access to our startup ecosystem

SCALE
▶ $120,000 of free credits

▶ 20 hours of technical support

▶ Access to our startup ecosystem

How to become a member?

Digital businesses who need rapid, flexible, and affordable scaling of cloud infrastructure will benefit from our program. This includes startups and scaleups using data-intensive technologies such as AI/ML, payments, blockchain, big data, cloud gaming, or streaming. Startups and scaleups across all verticals are welcome!

For Startups

Hit the ground running with START which is particularly helpful for early-stage startups in the ideation stage, building your minimum viable product (MVP).

For Scaleups

Accelerate your success through SCALE which takes advantage of flexible on-demand resources as you move from small to large-scale deployments.

Get started now. The process is easy:

▶ Fill in and submit an enquiry form at **us.ovhcloud.com/startup-program** or use the QR on the right

▶ You will receive an email asking for additional information

▶ Please reply accordingly.

We'll review your application and respond in a timely way.

Who is OVHcloud?

OVHcloud® is the leading European cloud provider with a global presence – dedicated to bringing secure, trusted, open and sustainable cloud solutions to everyone. We deliver industry-leading performance and cost-effective solutions to help our customers better manage, secure and scale data driven by open and innovative technology. In the United States, OVHcloud US is the local subsidiary which currently operates two data centers (Hillsboro, OR and Vint Hill, VA) and delivers cloud service globally across OVHcloud's data centers.
